## Male leotard

Front

Back

### Top tips

From Louise Tracey, Milano Design Manager...

1. **Be careful with the placement of patterns**  
(keep in mind the bottom of the male design may be covered by shorts or stirrups)
2. **Try to make your design work with the shape of the human body**
3. **Try to use complimentary colour combinations**

(You can add bling but remember this is a training leotard so not too much!)

In partnership with  
**British  
Gymnastics**
