# Message from Our Chair

We recognise the value of having a diverse Board and are committed to progressing towards greater diversity within Board and leadership positions. We have worked hard to encourage female Directors to our Board over the last 10 years and currently enjoy a 50/50 split of Male to Female members on the Board. We are committed to maintaining a good gender ratio and also recognise that there are other protected characteristics such as BAME groups who are under-represented on the Board and will strive to address any imbalance over the coming years through the actions set out in this plan.

British Gymnastics is fully committed to continuing to promote equality and diversity across our sport and is working towards mainstreaming equality principles both as an employer and a provider of services.

We will work towards making the sport open and accessible to everyone who wants to be involved and are committed to supporting the needs of all protected characteristics and ensuring an environment free from any form of discrimination, victimisation and harassment.

In working towards mainstreaming equality, we will:

- Ensure equality is embedded as part of our culture and is visible in the BG strategy;
- Develop our evidence base to provide a clear rationale for our aims and objectives and against which to measure the impact against our agreed priorities;
- Ensure functions, key policies and procedures in all areas of activity that include a visible equality dimension are screened and undergo a full impact assessment where appropriate;
- Implement a range of strategies to increase awareness and gain support and commitment at all levels of the organisation.

In line with the Advanced Standard for Equality, we aim to:

- Achieve significant progress towards diversity within board, staff (paid and unpaid), coaches, officials, members or participants;
- · Mainstream equality through the organisation's functions, policies and procedures; and
- Develop further initiatives to address each protected characteristic.
