Anti-doping

At national events the collection of doping control samples shall be initiated and directed by UKAD in coordination with British Gymnastics.

There is every possibility that gymnasts will be selected, either randomly or targeted by competition results whilst competing in the UK or internationally. If selected, a gymnast will be required to provide a urine sample of a predetermined volume, outlined within the international standard regulated by the World Anti Doping Agency, [WADA] and as specified by FIG. On occasions UKAD may use blood samples in which case qualified testing personnel will conduct this procedure with the Drugs Control Officer, [DCO].

On all occasions gymnasts are advised to take an 'advocate' with them into the testing station. This could be a member of the medical team a coach or a parent as relevant. In all cases, gymnasts are requested to declare all medications taken within the preceding 7 days.

Parents, coaches and gymnasts are encouraged to regularly check any medication throughout the year. If you have any concern or are unsure as to whether a medication is a restricted or banned substance, please refer to the following; Gymnasts can search particular brands of medications or for specific ingredients. The database is accessible via UKAD website, or directly; www.globaldro.com. Gymnasts, coaches and support personnel are also reminded that there are other ways to check the status of medications by using either the Drug Enquiry Line on +44 (0) 800 528 0004 or by emailing

information@ukad.org.uk or visit; www.ukad.org.uk

For further information on British Gymnastics Anti-Doping Policy, please find the full policy in Appendix 2 or visit www.british-gymnastics.org, Technical information & judges / Sports Science and Medicine / Anti-Doping Policy.

Drug Free Sport: Anti-Doping

One of the cornerstones of sport is the principle of fair play, and without question there should be an emphasis on fair play regarding the adherence to the rules of a drug free sport. It is therefore necessary and appropriate that a testing programme operates and is actively supported by BG. *The testing programme may affect any elite gymnast performing at a national standard.*

Under the Regulations of FIG, all British Gymnastics organised events are notified to UK Anti-Doping, (UKAD). Gymnasts and coaches should be aware that testing may take place at competitions, deemed to be testing 'in competition' and potentially at National Squad trainings, deemed to be 'out of competition'. In principle gymnasts under 16 years *may* be tested in particular circumstances. Consent is linked to all gymnasts with a FIG Licence, or parental consent established at the point of testing, but this means that gymnasts competing in disciplines with an Age Group Competition; Acrobatic, Aerobics, DMT, Trampoline and Tumbling, may be tested within any of the age group categories.

At national events, be they competition or national squads, the collection of doping control samples shall be initiated and directed by UKAD in coordination with British Gymnastics. In addition to this gymnast can be tested at home or their club, where they are of an international standard. For further information on British Gymnastics Anti-Doping Policy, please visit www.british-gymnastics.org, Technical information & judges / **Sports Science and Medicine** / Anti-Doping Policy.

There is every possibility that gymnasts will be selected, either randomly or targeted by competition results whilst competing in the UK or internationally. If selected, a gymnast will be required to provide a urine sample of a predetermined volume, outlined within the international standard regulated by the World Anti Doping Agency (WADA) and as specified by FIG. On occasions UKAD may use blood samples in which case qualified testing personnel will conduct this procedure with the Drugs Control Officer (DCO).

On all occasion's gymnasts are advised to take an 'advocate' with them into the testing station. This could be a member of the medical team a coach or a parent as relevant. In all cases, gymnasts are requested to declare all medications taken within the preceding 7 days.

Therefore, for a gymnast taking any medication, it is vital that these are checked on a regular basis and if tested, declared. If you are competing nationally it is advisable that you check medications to ensure they are permitted on each occasion, i.e. every event. If you compete internationally ensure you are prudent and do not use alternative medications from abroad as their ingredients can differ to the UK version. Any gymnast tested they will need to know the name of the medication, the dosage, frequency and the starting point of the course of medication, as well as state the condition it relates to.

If a gymnast is currently on any medication(s) which is/are restricted or prohibited or have a Therapeutic Use Exemption (TUE) certificate, it is vital to ensure that the British Gymnastics is aware of this, and to ensure TUE certification is available at the testing.

Supplements:

Diet, lifestyle and training should all be optimised before considering supplementation. Coaches and gymnasts should assess the need for supplementation and consult with an accredited sports dietician and/or registered nutritionist with expertise in sports nutrition, or doctor experienced in Sports and Exercise Medicine before taking using supplements. Scientific evidence continues to suggest that

supplements can become contaminated with restricted or banned substances during their production and could lead to a positive finding. Under the principle of 'strict liability', *it is the gymnast who is held accountable if a prohibited substance is found in a sample provided*, whether intentional or unintentional.

Informed Sport is an official website that provides some information on products which fall into the category of supplementation, but may have been previously tested for integrity: <http://www.informed-sport.com/about-informed-sport>

Gymnastics medical staff:

It is imperative that you seek advice if you are uncertain on medications, or the testing procedure. It is essential to promote, support and show that we are drug-free in the campaign to ensure sport is 'clean' in the UK.

Checking Medications:

If you have any concern, or are unsure as to whether a medication is a restricted or banned substance, please refer to the following; Gymnasts can search particular brands of medications or for specific ingredients via www.globaldro.com. Gymnasts, coaches and support personnel are also reminded that they can check the status of medications by using either the Drug Enquiry Line on +44 (0) 800 528 0004 or by emailing information@ukad.org.uk or visiting www.ukad.org.uk

ASTHMA:

There continues to be no requirement to complete a Therapeutic Use Exemption Use form (TUE) for a number of the asthma medications, including Salbutamol and Salmeterol. Formoterol has also been added to the list that no longer requires a TUE when taken by inhalation.

However, Formoterol has a threshold level of permitted use, maximum 54 micrograms over 24 hours. As a result of these changes UK Anti-Doping reminds all gymnasts that the British guidelines for inhaled Formoterol range from 24-72 micrograms per day. (If there is a medical situation requiring doses beyond 54 micrograms then a TUE may still be required, in which case a lung function test and application for asthma TUE will be required. If exacerbation of asthma requires a supplementary dosage of Formoterol, above 54 mg per 24h, an emergency TUE should be applied for).

Regardless of the dosage permitted, all gymnasts are encouraged to seek appropriate medical advice to ensure that they are receiving optimal treatment.

A TUE is still required for Terbutaline. In some cases, it is possible that gymnasts can change their medication to still effectively manage their asthma with an alternative, however please seek advice from your GP, and seek support from BG should this prove problematic or be an issue of concern.

PSEUDOEPHEDRINE:

Pseudoephedrine is a decongestant used to treat nasal and sinus congestion and remains on the list of prohibited substances. It is an ingredient in some 'Over the Counter' (OTC) cold and flu medications such as Sudafed (some varieties).

BG would strongly recommend you RECHECK any medications that you are currently taking or that you may have at home to ensure that you do not inadvertently contravene the doping regulations.

If you have any questions or queries, please do not hesitate to contact British Gymnastics Anti-Doping Officer.

In the fight for a drug free sport, BG fully endorses a testing programme at events organised by BG and request that you support and promote a clean image for British sport.
