WOMEN'S ARTISTIC CLASSIC CHALLENGE CHAMPIONSHIPS RULES 2021

Philosophy

This new competition has been devised to bridge the gap between FIG and Regional level gymnasts. It is hoped that this new competition pathway will become an integral part of British Gymnastics Women's Artistic programme.

The underlying principle of the Classic Challenge is for competition based on ABILITY rather than AGE. The Classic Challenge is about inclusion, a level playing field, fair play philosophies, and is pro-choice. This category must not be deemed to be "lesser" or of a "lower class", and coaches, judges, gymnasts and parents are discouraged from framing it that way.

The overriding aim is to allow the vast majority of Club Gymnasts a meaningful competition structure that is ACHIEVABLE FOR ALL. The new structure will allow gymnasts who train less hours per week to fulfil the rules within their ability level and receive a score which promotes self-value, self-worth and pride in their achievement, whilst giving an additional opportunity for these gymnasts to represent their region at National Finals.

Gymnasts will be able to compete at the Classic Challenge if they have not competed a compulsory level or FIG Challenge Qualification in that year. Gymnasts and coaches will have the option to switch between Classic Challenge and FIG Challenge Qualification each year, but they may not compete both competitions in the same year. Gymnasts competing compulsory levels will still have National Voluntary Levels which will be reviewed annually.

Introduction

For the past few years, WTC has been looking at ways to address the mandated reduction of gymnasts at the British Championships, yet also meet the demands of the vast increase in membership. In addition, keeping clubs in business, keeping gymnasts in the sport, and continuing to build tomorrow's coaches and judges has needed careful consideration. A working group was thereby commissioned towards the end of 2019, to take on this much needed body of work.

It can be stated that the current WAG competitive system in the UK is primarily based on FIG rules, but for all sorts of reasons most gymnasts cannot sustain or manage Bars, and/or cannot develop Vault beyond a certain point or make an international standard. The FIG Code is made for international level gymnasts. This then leaves a large majority of competitors needing a more realistic and less demanding way of competing and enjoying performing.

As a result, a new domestic "code of points" has been created to address these challenges, yet still allow for exceptional talent or late starters to emerge. This new code has been therefore created to address these and other challenges. The code is based largely on FIG rules and directives, yet much more choice and variety are highlighted.

This is a new competitive category that aims to keep these gymnasts in the sport, have a National Final Championship that they can strive for outside of the British Championships, and that values them in such a way that they consider their long-term involvement in the sport. These aims can be met by increased variety for a more personal and suitable choice of a lower number of counting elements and compositional requirements, thereby reducing potential stress and injury. Considering the impacts of Covid-19, every effort has to be made to keep gymnasts in the sport, and so save the clubs. Our hope is that this code contributes to those efforts.

Framework

The traditional Challenge Cup is to be renamed to "**FIG Challenge Qualifier**". This event is to enable gymnasts to attain a qualification score to progress to The British Championships only.

These new rules fall under the new "**Classic Challenge**" heading. An annual review with the WTC Working Group will occur to make any necessary changes.

So as to not require a whole new set of judging awards, the judging system is based on current FIG D and E evaluations with the addition of uncoded elements being recognised and counted towards the start value of the exercise. Gymnasts have a choice of Compositional Requirements (CR) which have also been modified to reflect the difficulty level. It is hoped that by allowing a choice of CR's the gymnasts will be better able to work within their ability. Execution will remain as FIG (unless otherwise stated), encouraging clean, aesthetic work.

Competition Structure

The different levels are called Zinc, Copper, Bronze, Silver and Gold Levels.

Zinc (8+ years) & Copper (9+ years) will be regional only levels and will not progress to National Finals. It is hoped that these new levels will enable regions to all work from the same rules for gymnasts that are not working to full FIG.

Bronze (10+ years), Silver (12+ years) & Gold (14+) will progress to National Finals in format of a regional team. The final details of this will be published as soon as possible.

Clarifications for Gold Level

Element recognition and deductions are as per FIG CoP unless the rules specifically state otherwise.

An element can be utilised to fulfil more than one CR (unless otherwise stated).

Listed uncoded elements can be used for DV, CR & Bonus and will be recognised with the same value as 'A' elements.

Maximum Bonus (including any FIG bonus) 1.00. Bonus can only be awarded if performed without a fall.

Vault:

- Additional modified 4 & 5 coil springboards will be available

Bars:

- 7 elements only are required
- A safety mat (depth 20cm), and/or a jersey style mat (depth 10cm), can be moved/placed as needed, but must not block the judges' view.

Beam:

- 7 elements only are required – 2 dance, 2 acro and 3 optional
- CR 1, 2, 3 must be performed on the beam, CR 4 can include mount and / or on the beam
- A jersey style mat (depth 10cm) is allowed for dismounts (optional).

Floor:

- 7 elements only are required – 2 dance, 2 acro and 3 optional
- Minimum 2 acro lines to be performed (penalty 1.00)
- For D+ Saltos, a jersey mat (depth 10cm) is allowed, no restrictions or deductions (2 jersey mats available, & can be moved). The mat(s) must be removed once no longer needed.
