

FIG Code of Points – Synopsis.

TRA

Rules 1 – 5 No significant changes,

1.1.2 The routine should show good form, execution, height, maintenance of height **and opening in all elements to demonstrate perfect control of the body during the flying phase.**

This has been added to now have an expectation of **OPENING IN ALL ELEMENTS** which means we will now be judging a lack of opening for basic shape jumps.

5 reference the introduction of *Horizontal Displacement*.

4 elements counting for difficulty for FIG A (Senior) in the first routine

6 Clothing

6.3 Bandages & supports no big contrast with skin colour. No underwear showing

6.4 Penalty for clothing violations is now **0.2 by the Chair** (This used to be 0.1 from total score)

7 Competition cards

7.3 Missing or required elements in the first routine- penalty of **2.0 by the difficulty judges** for each missing element. (Used to be 1.0 from each judge)

Example 1 if at Worlds, a gymnast has Rudi out (P) **1.5**, half in Rudi out (P) **1.6**, as their counting starred skills but in order to save the routine puts a straddle jump in the routine they have missed a requirement (which is 10 somersaults of 270° or more) so the Difficulty judge would indicate a penalty deduction of 2.0 taken from the score total.

Example 2 If a there is a compulsory routine with specific elements in it, but one the elements is missed, there needs to be a deduction for this of **2.0** for this again there would be a **2.0** penalty deduction for the routine total score issued by the difficulty judge}

9 Safety

In the past in rule 9 it talks about a country replacing up to two of the 4 spotters with their own spotters. **There is no longer any mention of 4 spotters.** However, on safety grounds it would still be preferred that we continue to have 4 spotters for competitions (or two spotters where the beds are put together.)

9.1.2 A spotter mat may be used by the competitor's own spotter(s) from **both** sides of the trampoline.

13 Start of a Routine

13.2 Penalty for delayed start is now taken from by the Chair of Judges instead of the execution judges.

61 seconds	0.2	(previously 0.1 by each E judge)
------------	------------	----------------------------------

91 seconds	0.4	(previously 0.2 by each E judge)
------------	------------	----------------------------------

121 seconds	0.6	(previously 0.3 by each E judge)
-------------	------------	----------------------------------

181 seconds	disqualified from the round	
-------------	------------------------------------	--

13.5 If gymnasts/pairs are not ready to start at the time and in the order as laid down in the start list, they will be **disqualified** from the respective round of competition

15 Repetition of Elements

15.1 Repetition of an element in the first routine – **penalty of 2.0 by the difficulty judge** from the total score. (This used to be 1.0 by each execution judge)

16 Interruption to a routine

16.9.1 Better clarification as to what is a *half an element ahead* of a partners in synchro which constitutes and interruption to the routine

17 Termination of a routine

17.2 Uncontrolled out-bounce will cause a **0.1** deduction. (21.3.2)

This is **in addition** to the end of routine deductions so an uncontrolled out bounce and some

steps could now be up to **0.3** deduction.

17.3 Synchro - if gymnasts have a different ending (i.e. one out-bounces and one doesn't) there is a penalty of **0.4 from the Chair of Judges, From the total score.** (Previously this was 0.2 from the synchro score)

17.5 More than 10 elements in a routine, a penalty of **2.0 by the Chair of Judges.** (This used to be 1.0 by each execution judge.)

18 **Scoring**

Introduction to scoring – 5 types of marks given,

D – Difficulty,

E – Execution

H – Horizontal displacement,

T – Time of Flight,

S – Synchronisation

18.1 Quadruple somersaults performed by Youth/Juniors = disqualification.

18.2 The evaluation of execution, horizontal displacement and difficulty is done in 10ths of a point.
The synchronization is evaluated in 1/100 of a point.
The time of flight is evaluated in 1/1000 of seconds.

18.2.6 Evaluation of the score for horizontal displacement (H):

- The evaluation of the horizontal displacement should be done electronically
- The horizontal displacement deductions for each element are subtracted from the maximum mark, i.e., 10.0 points, or the mark decided by the CJP.
- If the electronic scoring system is not available, Execution Judges 5 & 6 will be responsible to evaluate the horizontal displacement instead of execution. Their marks will be **averaged** and taken as the "H" score

18.2.7 Evaluation of the score for time of flight (T):

The evaluation of the Time of Flight mark should be done electronically controlled by the Chair of Judges' Panel.

18.2.8 Evaluation of the score for Synchronization (S):

The evaluation of the Synchronized mark should be done electronically controlled by the Chair of Judges' Panel.

18.2.5.2 Scoring for Individual competition

Execution to be out of **20** instead of 30.

Horizontal Displacement (H) to be out of **10**.

To have only 2 execution counting judges using 6 judges (removing 2 high and 2 low scores).

6 judges are used where there is electronic HD equipment

At competitions where there is no electronic HD equipment use only 4 judges (removing high and low scores). Then 2 judges will judge Horizontal Displacement (average of their scores).

E (max. 20 pts) + H (max. 10 pts) + D + T - Penalty

	J1	J2	J3	J4	J5	J6	E	H	D	T	P	SCORE
2016	8.2	8.0	7.9	7.7	8.1		24.0		12.0	16.000	0.0	52.000
2017 onwards	8.4	8.2	8.1	7.9	8.3	8.2	16.4	9.4	12.0	16.000	- 0.2	53.600

- 18.2.5.3 Scoring for Synchronised competition
 Execution to be out of 10 instead of 20.
 Horizontal Displacement (H) to be out of 10 (each trampoline 5 pts).
 To have only 2 execution counting judges using 6 judges (removing 1 high and 1 low score for each trampoline). Average the remaining two scores.
 Competition without Horizontal Displacement device use only 4 judges (averaging per element).

E (max. 10 pts) + H (max. 10 pts) + D + S (max 20 pts) - Penalty

	J1	J2	J3	J4	J5	J6	E	H	D	S	SCORE
2016	8.0	8.2	7.9	7.7			15.9		12.0	9.0 x 2	45.900
2017	8.2	8.4	8.1	7.9	8.1	8.2	8.15	9.45	12.0	8.17 x 2	45.940
2017	8.2	8.4	8.1	7.9	8.1	8.2	8.15	9.45	12.0	9.23 x 2	48.060

Judges' panel (using Horizontal Displacement device)

Composition with HD device:	Individual	Synchronised
Chair of Judges Panel (TOF, HD, SYN)	1	1
Judges for Execution		
- for individual competition (nos. 1-6)	6	
- for synchronised competition		6
(Trampoline Nº 1: Judges nos. 1 & 3 & 5)		
(Trampoline Nº 2: Judges nos. 2 & 4 & 6)		
- Judges for Difficulty (nos. 7 & 8)	2	2
Total	9	9

Judges' panel (not using Horizontal Displacement device)

Composition without HD device:	Individual	Synchronised
Chair of Judges Panel (TOF, SYN)	1	1
Judges for Execution		
- for individual competition (nos. 1-4)	4	
- for individual horizontal displacement (nos. 5-6)	2	
- for synchronised competition		4
(Trampoline Nº 1: Judges nos. 1 & 3)		
(Trampoline Nº 2: Judges nos. 2 & 4)		
- for synchronised horizontal displacement (nos. 5-6)		2
(Trampoline Nº 1: Judges no. 5)		
(Trampoline Nº 2: Judges no. 6)		
- Judges for Difficulty (nos. 7 & 8)	2	2
Total	9	9

20

Duties of the CJP

There are a number of additional duties, the CJP has a lot more to do, penalties which previously were added to the execution judge's deductions are now CJP penalties.

le	Time penalties	0.2, 0.4, 0.6, disq
	Talking from the coach penalties	0.6
	Out bounce and no out bounce in synchro penalties	0.4
	Additional element penalties	2.0

Missing element penalties (now by the Diff judge) **2.0**

Repeat element penalties (now by the Diff judge) **2.0**

20.12 Controls the re-scoring of missing TOF, Synch & HD if the machined breaks down

20.14 Now controls all the score (chief recorder not mentioned any more)

20.16 Act as assistant chair at synchro

21

Duties of execution judge

A number of duties/scoring penalties now removed, the execution judge just does execution!!

21.3.2.3 after landing, touching the bed with one or both hands **0.5 pts**

21.3.2.4 after landing, touching with or falling to the knees, hands & knees, front, back or seat on the bed **1.0 pts**

This has now effectively doubled the penalty for falling onto seat, front back etc

21.3.2.6* landing or falling outside the trampoline bed, leaving the trampoline area, or performing an **additional somersault/element** **1.0 pts**

22

Duties of difficulty judge

No changes other than giving penalties for missing elements or repeat element.

23

Duties of judges for Horizontal displacement

Details of what is to be done when there is no equipment using the Guide to judging drawings to determine zones

From guide to judging

0.3	0.2		0.3	
0.2	0.1	0.0	0.1	0.2
0.3	0.2		0.3	

From Guide to judging

21.3.2 - Lack of stability after a completed routine.

Uncontrolled movements in the out-bounce must also be judged as part of the instability.

Example of deductions for out-bounce (maximum 0.1 pt) :

- *Uncontrolled movements in the out-bounce 0.1*

Example of deductions for landing (maximum 0.2 pts) :

- *Movement of arms while standing on the bed (ex. circle) 0.1*
- *Step(s) or bounce(s) 0.1 – 0.2*
- *Not standing upright 0.1*
- *Standing with feet apart or more than shoulder width 0.1*
- *Turning to the judges before being totally stabilized 0.1*
- *The penalty is not connected to the length of the step or the bounce, but to the amount.*
- *When a step is taken (deduction 0.1 pts), coming back with the same foot to a stable upright position is not considered to be a stepping deduction.*
- *Total deductions for instability in out-bounce and landing must not exceed **0.3***

B Examples of Difficulty for Tra (Page 51 – Guide to Judging)

It has been confirmed by FIG that column 2 where there is a < symbol representing a piked skill, this is wrong, the scores in this column should represent tucked or pucked skills, column 2 should be a < or / symbol representing piked or straight elements. So there is no change to our difficulty judging as per rule 18.1.1 Tra Cop.

Guidance Drawings

There are clearer guidance drawings with additional guidance for opening of somersaults from back and front landings and also for piking or tucking down for these landings as well as diagrams to show the body and feet positions to decide which zone a gymnast is in for horizontal displacement.

L Requirements for first routines Tra FIG events (Jan 2017)

In the first routine this is now **4 elements** with a diff score (which obviously will not count for difficulty if repeated in the 2nd routine.

FIG Code of Points – Synopsis.

DMT

6.0 Competition dress

6.3 Removed, now says see Tra 6.3 (This was to do with jewellery & strappings etc)

13.0 Start of a pass

13.2 Time penalty of 0.3, (no longer 0.1 by each E judge) it is now **0.3 by the CJP**

13.4 **This is new** After a routine is started, talking to or giving any form of signal to a gymnast by their own coach during the routine will result in a penalty of **0.9 pts applied only once by the CJP**

16.0 Interruptions to a pass

16.3 touching anything during a pass is now a **0.3** penalty by the CJP - NOT an interruption.

Explanation in judging guide: Due to the narrowness of the DMT bed, it is possible for the gymnast may touch something other than the bed with some part of the body, even though his feet land on the bed as required. However, if it is obvious that the foot lands outside the bed, this will constitute an interruption.

18.0 Scoring

18.1 Quadruple somersaults by Youth - as for Tra

18.1.6.5 **New** how to calculate the difficulty of a quadruple S/S!!!

18.2.4 **New** At FIG events, if any of the Execution Judges fails to enter all deductions for each performed elements [considering the landing deductions], the average of the other deduction per element will be taken for the missing deduction(s).

18.2.5.3 **No longer a median score** (At FIG events, the sum of the 3 middle deductions per element of the 5 execution judges is taken as the deduction per element, then the sum of these deductions [considering the landing deductions] is subtracted from the highest possible execution score [max. 30 pts] to give the gymnast's execution score for a pass).

E (max. 30 pts) + D - Penalty

Scoring example with athlete landing in zone C (0.5 deduction)

	J1	J2	J3	J4	J5	E	D	P	SCORE
2016	9.2	9.0	8.9	9.0	9.1	27.1	6.0	0.0	33.100
2017	9.7	9.5	9.4	9.5	9.6	28.6	6.0	- 1.5	33.100

19.0 The judges panel

19.2 Judge podium 50cm high is now added

20.0 Duties of the Chair of Judges

20.10 Chair now deducts for landing inside zones B & C and for stepping from one to the other.

Apply the following landing penalties:

20.10.1* landing inside zone B (see Part II – Guide to Judging) **0.9 pts** (previously 0.3 from each E judge)

20.10.2* landing inside zone C (see Part II – Guide to Judging) **1.5 pts** (previously 0.5 from each E judge)

20.10.3 stepping out from zone A to zone B or C or from zone B to C **0.3 pts** (previously 0.1 from E judges)

21.0 Duties of an execution judge

21.3.2.1 “or make the following deductions on instructions of the chair” has been removed

21.4 Ref landing zones has been removed

21.4.6 Ref penalty zones has been removed

Note: The central penalty zone in DMT is no longer a penalty mark if it is landed on during part of the pass.

Guide to judging ref DMT

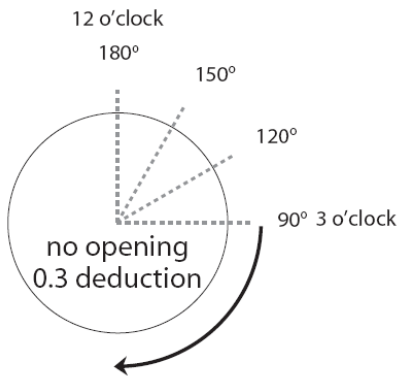

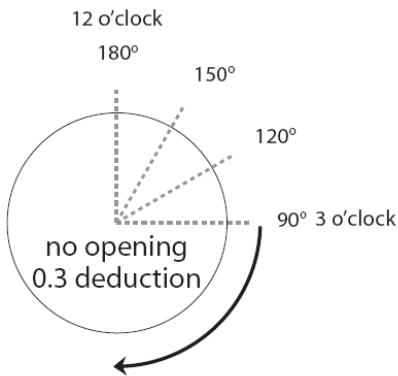

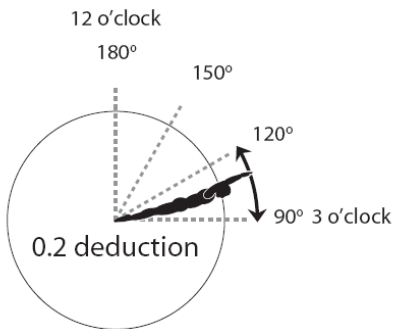

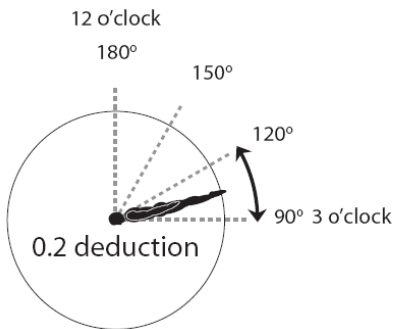

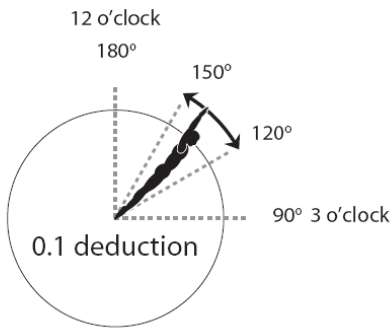

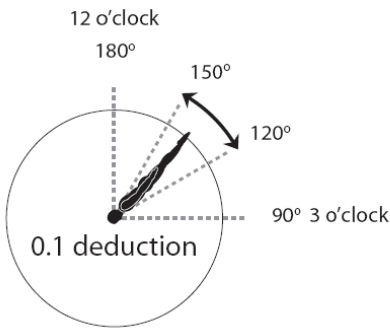

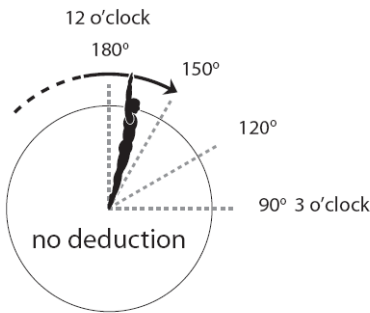

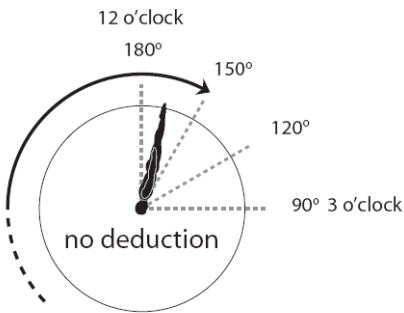

Explanation of 16.1.6 clarified (ie touching the frame pad during a skill)

CLARIFICATION OF DRAWINGS

OPENING IN SOMERSAULT
