Issue No. 29 (REVISED) – February 2022

Published 7th February 2022

Dear All

This update has been revised to inform you of the change of date of the Compulsory Levels to avoid the Platinum Jubilee celebrations which were announced after the original Compulsory Levels date had been booked in 2020. An alternative date and venue has now been secured and is listed below in the revised event dates.

We would like to remind everyone that the Compulsory Levels booklet is available in the Academy and that the Voluntary Levels document is on the BG website. In addition, the NDP Grades have not changed in any way, and the judging rules are as per the booklet. Therefore, all judges who were qualified in Cycle 14 are still eligible to judge the Grades competitions within the regions, and we ask that all Clubs support the Regions in enabling them to run these events.

JUNIOR BRITISH CHAMPIONSHIPS & JUNIOR FIG CHALLENGE QUALIFIER 2022 Gymnasts 14 & 15 years of age

FIG Cycle 15 Code of Points (2022-2024)

BONUS

BARS

- If a gymnast is awarded all 4 FIG CRs, she will receive a **0.30** bonus

SENIOR BRITISH CHAMPIONSHIPS & SENIOR FIG CHALLENGE QUALIFIER 2022 Gymnasts 16+ years of age

FIG Cycle 15 Code of Points (2022-2024)

Women's Artistic Technical Committee

The registration for the British is open. The safety of the gymnasts is paramount. They will need to be well prepared and safe in their choice of skills. However the guidance for this level of competition remains as stated in the last Update:

Vaults at all levels to have a salto.

Espoir	2 CR on Bars 4 CR on Beam 3 CR on Floor, to include 1 salto minimum 'D' or more
Junior	3 CR on Bars 4 CR on Beam 4 CR on Floor
Senior	4 CR on Bars 4 CR on Beam 4 CR on Floor

Gymnasts may still be working to return to previous levels so please remember another route through Classic Challenge may be the way to go in 2022.

Qualification for Vault Final at British Championships 2022

As we don't hold a "Qualification" event at the British those gymnasts wishing to qualify for the Vault Final will still be permitted 3 warm up vaults in the All Around competition. This is different to the new rule in the Code of Points which states that only 2 warm up vaults are permitted in All Around Final. However, as per the new CoP, in the Apparatus Final itself, only 2 warm up vaults will be allowed.

Change to Uneven Bars measurements

Both bar rails will be raised by 5cm for all gymnasts, effective 1st January 2022.

The new measurements are **175cm for the low bar** and **255cm for the high bar**.

The new inner diagonal distance between the bars will be confirmed by the FIG in the publication of the Apparatus Norms.

Tall gymnasts may still request to raise both bar rails by an additional 5cm according to the Code of Points rule.

Code of Points 2022-2024

We have some important full FIG competitions coming up and I am sure you are all working hard and making good decisions for the routine construction of your gymnasts.

It must be remembered that the technical requirements of all elements is important and we would like to raise one or two things which need to be taken into consideration:

Ring leap/jump requirements as per bottom photo below:

Failure to fulfil these requirements (see next photo for incorrect positions) will mean the element will be credited another element in the CoP, ie.

- switch leap to ring (value E) becomes switch leap (value C)
- split jump to ring (value D) becomes split jump (value B)
- split leap to ring (value D) becomes split leap (value A)

Women's Artistic Technical Committee

Ring not awarded

WE ARE GYMNASTICS! GYMNASTICS SPORT

Split/Switch leaps & Split jump

No arch requirement met

No release of head

Back foot below crown of head – Split/Switch leap/Split jump

Good arch, but foot is too low

Refer to horizontal line parallel to the floor/beam when determining required positions in leaps and jumps

Switch leap with ½ turn - if the gymnast goes through a Johnson position/technique, it is credited a Johnson (value C) even if the ½ turn is completed.

Women's Artistic Technical Committee

Jumps and leaps with turn:

Guidelines:

Element will not be recognized as jump with turn in side position when:

- Start with moving the foot/feet
- Turning the head in the preparation
- During preparation there is early turning of knees/hips

(When bending the knee, body should be in forward direction)

Connection principles:

GUIDELINES:

- Timing in connection is the determining factor
- If the fluency is not interrupted by a lack of balance, the connection is recognized:
 - slight movement with arms → **YES**, the Connection counts 
 - visible clear lack of balance – (movement of the upper body or shoulder to the side etc.)
→ **NO**, connection doesn't count 
- Free leg placement could be at the back or in front

Arms' position in mixed connections

- Timing of preparation for the next element (pre-loading) is decisive
- Landing the free leg together with arm swing in one direction → **YES** award Connection. 
- The connection is given as long as arms circle going in one direction.
- Landing with straight legs with arms up and stop → **NO** Connection
- A double swing (fwd & bwd) is not permitted

(for example: )

Women's Artistic Technical Committee

On straight Vaults without twist the stretched position must be maintained for the majority of the salto. A slight bend in the hips (approx. up to 30°) is allowed. More than 30° is considered Pike.
