

Update on the 'Announcement Regarding GB Elite Exemptions Strategy for Worlds/WAGC Selection 2021'

The original intention of this announcement was that a 3rd group of gymnasts would be identified to assess their eligibility for the 2021 Worlds/WAGC selection process in February 2021. This group has been identified but unfortunately the Aerobics Selection Nomination Panel has not been able to offer them Elite Training Status. With the worsening Covid Situation generally in the run up to Xmas 2020 this threatened to push the numbers too high in comparison to other discipline elite groups within BG, especially when this group was yet to be confirmed as eligible for selection.

On the plus side however this group remains identified and the remote monitoring/assessment process in place up to the end of January 2021.

Aerobics Selection Nomination Panel – 6th Jan 2021
